

HIGHLIGHTS:

- Request information on up to 20 part numbers at one time
- NEW!** Part number list can now be edited from the results screen
- Can use several part number formats
- RoHS compliance status shown for each part
- Can check distributor inventory easily

Tyco Electronics enables you to get real-time pricing and availability information on most products. This presentation will review the features of the Check Pricing and Availability system on the Tyco Electronics website based on the March 2007 version.

Once you are signed in, you can select Check Pricing and Availability from the My Account drop down menu or the My Account page.

The part inquiry system begins with an input screen which enables the user to submit information and provide you with real-time information on up to 20 part numbers at one time, depending on the location accessed.

The screenshot shows a web form titled "Check Pricing & Availability". At the top left, there is a breadcrumb trail: "Home > My Account > Check Pricing & Availability". The form has a header section with "Account:" (1234567890) and "United States" (dropdown), and "Company:" and "Address:" fields. Below this is a section for entering part numbers, with a note: "Enter up to 20 part numbers (1 per line)". A text box contains three part numbers: 205208-1, 31265, and 225395-7. To the right of this box is a "Part Number Type:" dropdown menu with a list: "TE Part Number/Military Spec", "TE Part Number/Military Spec", "Customer Part Number", and "National Stock Number". Below the dropdown are "Search" and "Clear" buttons. To the right of the part number entry is a "Provide optional input" section with fields for "Request Quantity:" (3344), "Request Date:" (2007-10-20), and "Prime Contractor:". Three callout boxes with orange borders and blue text provide instructions: 1. "Pick the system to use, and enter your account number here" points to the account and country fields. 2. "Enter up to 20 part numbers; type or paste a list here" points to the part number text box. 3. "Select a part number type for the list; Tyco Electronics part numbers and Mil-Spec part numbers can be submitted on the same list" points to the dropdown menu.

There are several required fields which must be completed before the inquiry can be processed. First, the Tyco Electronics location must be selected from the drop down menu. Second, the customer account number must be entered into the box at the upper left corner. Zeroes may replace hyphens or dashes in an account number with a maximum of ten digits. For example 1234-1-1 is entered as 12340101. An account number such as 987654 -32-10 would drop the hyphens and be entered as 9876543210. Both location and account number are saved for all transactions unless they are changed by the user.

If the Tyco Electronics system being accessed by the application accepts multiple part number types, you will be able to select the part number type being queried. This part number type is selected from a drop down menu and applies to the entire list of parts being submitted. For the United States location, there are now only three types to choose from. Note that Tyco Electronics part numbers and Military Specification part number types have been combined – you can now enter either format or a list that mixes both formats at the same time. Customer Part Numbers and National Stock Number formats must be entered and submitted as separate lists.

The part number field accepts up to 20 part numbers at one time. You can enter the list one item at a time using the enter key on your keyboard to go to the next line, or you can simply paste a list from another application into the box. Please note that the maximum number is determined by the location selected and will be indicated above the entry box. In this example, three part numbers with a future date and a specified quantity are entered.

Check Pricing & Availability

+ * Account: 1234567890 United States <small>(View Valid Account Numbers)</small>		Company: Address:	
* Enter up to 20 part numbers (1 per line) 205208-1 31265 225395-7		Provide optional input Request Quantity: 3344 Request Date: 2007-10-20 Prime Contractor:	
* Part Number Type: Search Clear		TE Part Number/Military Spec TE Part Number/Military Spec Customer Part Number National Stock Number	

Enter quantity and date if desired; will apply to entire list

Next, the requested delivery date can be typed in or by clicking on the calendar icon, and selecting it from the calendar. The requested quantity can also be entered. If no quantity is entered, the system will assume that the minimum order quantity will be used for the request.

Optional fields may appear depending on the Tyco Electronics system being accessed by the application. In this example, the US location includes Prime Contractor as an option to be entered so that the inquiry will process the request and return information related to authorized sub-contractor pricing where applicable. Other locations may have other optional fields to be used.

Check Pricing & Availability

+ * Account: 1234567890 United States <small>(View Valid Account Numbers)</small>		Company: Address:	
* Enter up to 20 part numbers (1 per line) 205208-1 31265 225395-7		Provide optional input Request Quantity: 3344 Request Date: 2007-10-20 Prime Contractor:	
* Part Number Type: Search Clear		TE Part Number/Military Spec TE Part Number/Military Spec Customer Part Number National Stock Number	

Click "Search" to submit your request

Once your list is ready, click the Search Button to continue.

Check Pricing & Availability

+ * Account: 1234567890 United States (View Valid Account Numbers) Company: Address:

* Enter up to 20 part numbers (1 per line) Provide optional input

205208-1
31265
225395-7

* Part Number Type: TE Part Number/Milita

Search Clear

If any part number needs clarification, you can select the specific one/s you want from this screen. Click "Select" to continue...

 Part Number(s) entered refers to multiple products. Please select desired products.

Select	Requested Part	TE Part Number	Brand	Part Status	Product Description
<input type="checkbox"/>	205208-1	205208-1	AMP	✓ Active	CRIMP SNAP PLUG ASSY, 25 POS
<input type="checkbox"/>	205208-1	4-1616897-8	Hartman	✓ Active	205208-1=CONNECTOR- 25 PIN PLU
<input checked="" type="checkbox"/>	31265	31265	AMP	✓ Active	BUDG R 22-16 COMM 22-18 MIL 8
<input checked="" type="checkbox"/>	225395-7	225395-7	AMP	✓ Active	BNC PLUG DUAL CRIMP RG174,188

Select

If the list contains any part numbers which may have more than one possible match, a cross reference screen as shown here will appear. You will need to select the correct items before continuing. You can select both items as desired but you should be aware of this when reviewing the results. Part Status now appears in this list.

For users with access to the United States-Raychem system, a wildcard feature is available for assistance with part number inquiries. By including an asterisk character at the end of your character string, you will be presented with a list of possible part numbers.

Click on Select when your list is finalized.

The result detail screen provides product availability details and packaging information, returnability status and other product details including country of origin. Scrolling down this page will provide additional packaging, availability and quantity pricing information for all part numbers on the list you submitted. Pricing detail for various quantity breaks is displayed. This display is determined by your profile as established by your security administrator.
